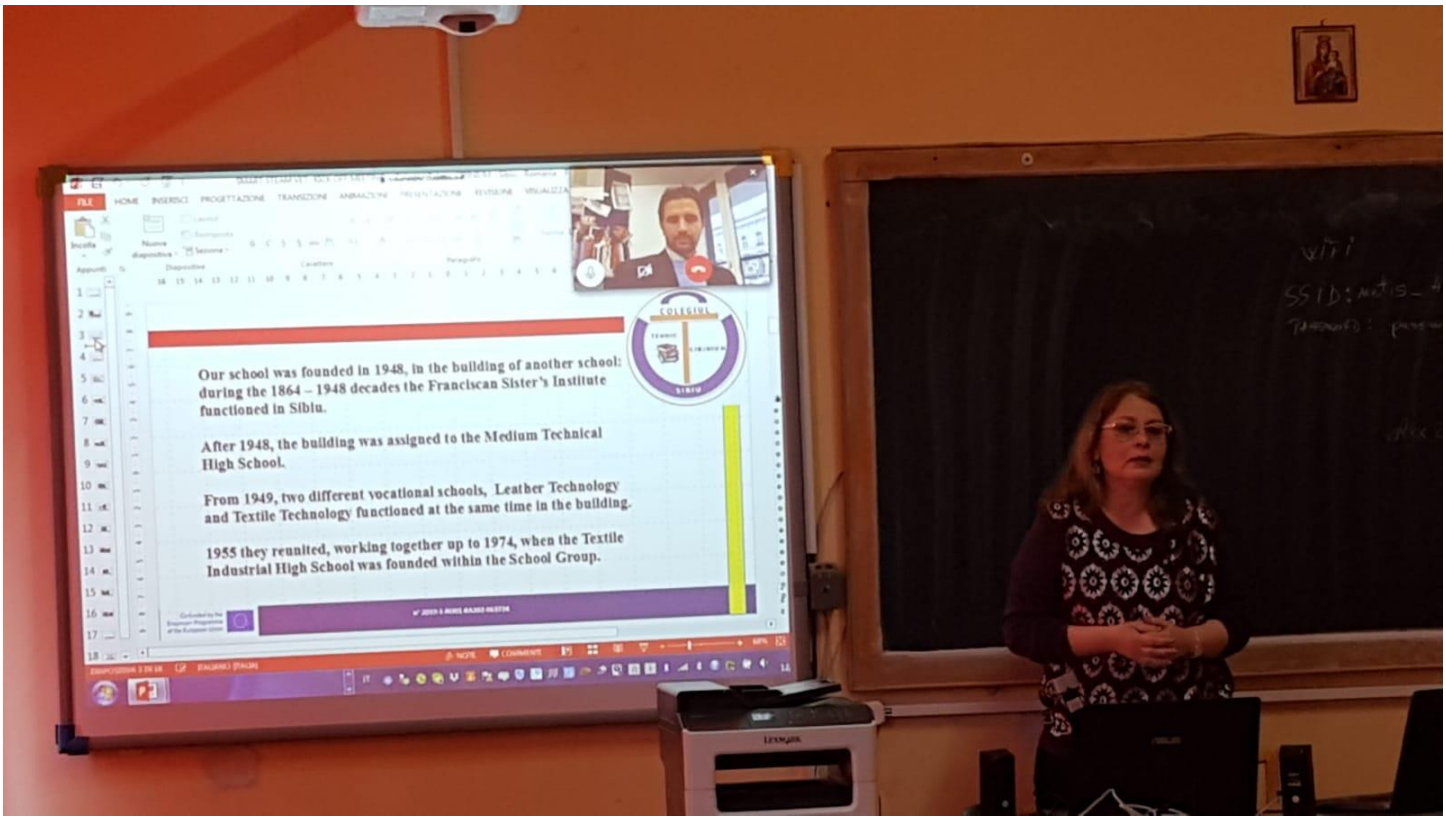
ÎNTÂLNIRE _Proiect_Erasmus+_& STEAM_VET

DECEMBRIE 2019



Our school was founded in 1948, in the building of another school: during the 1864 – 1948 decades the Franciscan Sister's Institute functioned in Sibiu.
After 1948, the building was assigned to the Medium Technical High School.
From 1949, two different vocational schools, Leather Technology and Textile Technology functioned at the same time in the building.
1955 they reunited, working together up to 1974, when the Textile Industrial High School was founded within the School Group.
